Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 7-8, 14, 19 and 25-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Llewellyn (5,329,251).

As per claims 1 and 7, Llewellyn discloses a clock distribution circuit, comprising:

A first clock circuit that is configured to generate a first clock signal responsive to an error signal;

A second clock circuit that is configured to generate a second clock signal responsive to the error signal; and

A phase detector circuit that connects the first clock circuit and the second clock circuit and is configured to generate the error signal responsive to the first and the second clock signals. (See col. 3, lines 29-33, lines 63-68).

As per claim 8, Llewellyn disclose a clock distribution circuit comprising:

A plurality of phase detector circuit;

A plurality of clock circuits..., the respective ones of the plurality of clock circuits being configured to generate respective ones of the plurality of clock signals responsive to respective ones of the plurality of error signals that are generated by the respective ones of the plurality of the phase detector circuits that directly connect the respective

ones of the plurality of the clock circuits to the at least one other of the plurality of clock circuits. (See Fig. 3, col. 6, line 42 to col. 8, line 57).

As per claims 14, 19 and 25-26, these claims are rejected under similar rationale as set forth in claim 1.

3. Claims 2-6, 9-13, 15-18 and 20-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung My Chung whose telephone number is 571-272-3818. The examiner can normally be reached on Monday to Friday.
